

MATHO-QUILL

Creative Writing

RULES:

1. Your writing needs no bound, except from word limit, that is maximum 1000.
2. The writing doesn't have to be strictly mathematical (as we are not looking for expositions), they can have analogies to real life, for something else, but they must adhere to the themes given.
3. You will be heavily marked on how original and thought-provoking literary interpretation you have with a subtle mathematical touch.
4. Only one write up will be accepted from a participant.
5. Decision of the judges panel is final.

THEMES:

You will have to write about one of the themes given below:

1. **Asymptotes in the curves of life**
2. **Droste Effect**
3. **The music of numbers**
